

OAK Foundation Event Attendance Platform

Event Information

Event Name: OAK Foundation Event

Event Dates: 9 November 2026 to 11 November 2026

Purpose:

The platform will allow event participants to register, access event information, receive QR codes where applicable, facilitate event check in, track attendance, and provide access to event resources such as the event program and partner information.

1. User Roles

The system must support the following user roles:

1. Partner
2. OAK Staff
3. Coordination Team
4. Presenter
5. Observer

Each role will have different permissions and access levels within the platform.

2. Registration Page

Registration Form Fields

All users must complete the following fields during registration:

Personal Information

- First Name
- Last Name
- Organization

Optional Information

- Sub Partner Program Area (Optional)

Role Selection

Users must select one of the following roles:

- Partner
- OAK Staff
- Coordination Team
- Presenter
- Observer

Contact Information

- Email Address
- Phone Number

Additional Requirements

- Dietary Requirements
- Accessibility Requirements
- Travel Requirements
- Accommodation Requirements

Registration Action

- Register Button
-

3. Registration Workflow

Scenario 1: Partner Registration

When a user registers as a Partner:

System Actions

1. Save participant information to the database.
2. Generate a unique QR Code.
3. Associate the QR Code with the participant record.
4. Display the generated QR Code.
5. Allow the participant to download the QR Code.
6. Send a confirmation email containing:
 7. Registration details
 8. Downloadable QR Code
 9. Event information

User Access

Partners will receive:

- QR Code Page

The QR code will be used during event entry for attendance verification.

Scenario 2: OAK Staff Registration

When a user registers as OAK Staff:

System Actions

1. Save participant information to the database.
2. Mark user as registered.
3. Redirect user to the platform dashboard.

User Access

OAK Staff members can access:

- Program Page
- Partners Page

No QR Code is generated.

Scenario 3: Presenter Registration

When a user registers as a Presenter:

System Actions

1. Save participant information to the database.
2. Mark user as registered.
3. Redirect user to the platform dashboard.

User Access

Presenters can access:

- Program Page
- Partners Page

No QR Code is generated.

Scenario 4: Observer Registration

When a user registers as an Observer:

System Actions

1. Save participant information to the database.
2. Mark user as registered.
3. Redirect user to the platform dashboard.

User Access

Observers can access:

- Program Page
- Partners Page

No QR Code is generated.

Scenario 5: Coordination Team Registration

When a user registers as a Coordination Team member:

System Actions

1. Save participant information to the database.
2. Mark user as registered.
3. Redirect user to the Coordination Team dashboard.

User Access

Coordination Team members can access:

- Check In Page
- Program Page
- Partners Page
- Attendance Page

No QR Code is generated.

4. QR Code Page

Purpose

The QR Code page is available only to users registered as Partners.

Features

QR Code Display

Display:

- Participant Name
- Organization
- Registration ID
- QR Code

Download Functionality

Allow participants to:

- Download QR Code as PNG
- Save QR Code to device

Event Reminder Information

Display:

- Event Name
 - Event Dates
 - Venue Information (if available)
-

5. Check In Page

Access

Available only to Coordination Team members.

Purpose

To scan participant QR Codes during event entry.

QR Scanner

The page must include:

- Camera Scanner
 - Scan Status Indicator
-

Successful Scan Flow

When a valid QR Code is scanned:

Display Participant Information

- Full Name
- Organization
- Role
- Registration Status
- Check In Time

Actions

1. Mark participant as attended.
2. Record attendance timestamp.
3. Update attendance records.
4. Show success confirmation message.

Example:

"Participant Successfully Checked In"

Invalid QR Code Flow

When the QR Code cannot be verified:

Display Error Screen

Title:

"QR Code Not Recognized"

Possible reasons:

- Invalid QR Code
- Duplicate QR Code

- Network Error
- Corrupted QR Code
- Participant Not Found

Available Actions

- Retry Scan
 - Manual Search
 - Return to Scanner
-

6. Attendance Page

Access

Available only to Coordination Team members.

Purpose

To track registration and attendance statistics.

Dashboard Statistics

Display:

Total Registered Participants

Count of all registered users.

Total Attendees

Count of users successfully checked in.

Attendance Percentage

Calculated attendance rate.

Role Breakdown

Display participant counts by role:

- Partners
- OAK Staff
- Coordination Team

- Presenters
 - Observers
-

Participant List

Display:

- Full Name
- Organization
- Role
- Registration Date
- Attendance Status
- Check In Time

Search and Filters

Allow filtering by:

- Name
 - Organization
 - Role
 - Attendance Status
-

7. Program Page

Access

Available to:

- OAK Staff
 - Presenters
 - Observers
 - Coordination Team
-

Purpose

To provide access to the event schedule.

Features

Event Schedule

Display:

- Date
 - Time
 - Session Title
 - Speaker
 - Venue
-

Session Details

Allow users to:

- Open session details
 - View session description
 - View speaker information
-

Notes Feature

Users can:

- Create personal notes
 - Edit notes
 - Save notes for each session
-

8. Partners Page

Access

Available to:

- OAK Staff
 - Partners
 - Presenters
 - Observers
 - Coordination Team
-

Purpose

To showcase participating partners.

Features

Display:

- Partner Logo
- Partner Name
- Organization Description
- Website Link
- Contact Information

Partner Details Page

When a partner is selected, display:

- Full Profile
 - Organization Overview
 - Areas of Work
 - Contact Details
-

9. Database Requirements

The system should store:

Participant Information

- First Name
- Last Name
- Organization
- Sub Partner Program Area
- Role
- Email Address
- Phone Number
- Dietary Requirements
- Accessibility Requirements
- Travel Requirements
- Accommodation Requirements

Registration Information

- Registration ID
- Registration Date
- QR Code ID
- Registration Status

Attendance Information

- Attendance Status
- Check In Time
- Check In Date

User Permissions

- Role Based Access Control
- Page Access Permissions

10. Role Based Access Matrix

Page	Partner	OAK Staff	Presenter	Observer	Coordination Team
Registration	Yes	Yes	Yes	Yes	Yes
QR Code Page	Yes	No	No	No	No
Program Page	No	Yes	Yes	Yes	Yes
Partners Page	No	Yes	Yes	Yes	Yes
Check In Page	No	No	No	No	Yes
Attendance Page	No	No	No	No	Yes

11. Complete User Journey

Partner Journey

Registration → QR Code Generated → QR Code Download → Event Entry → QR Code Scanned → Attendance Recorded

OAK Staff Journey

Registration → Program Page → Partners Page

Presenter Journey

Registration → Program Page → Partners Page

Observer Journey

Registration → Program Page → Partners Page

Coordination Team Journey

Registration → Check In Page → Program Page → Partners Page → Attendance Dashboard
